

## Wyeth Pharmaceuticals

May 24, 2006

**Wyeth**

David Newman  
121 Rodney Circle  
Bryn Mawr, PA 19010

David,

Thank you for your invigorating presentation to the Wyeth Performance Consortium on "Juiced!"

We truly appreciate the time you spent with us this week. Your energy, humor and friendliness help create a sense of anticipation at what you have to share.

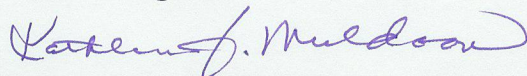

The great tools, activities and supporting examples reinforced your 8 key points. The audience was fully engaged and you did a fine job of including our virtual audience as well.

We particularly appreciate your "going the extra mile" to customize your topic to fit perfectly into the Behavior Engineering Model we use as a framework for performance improvement.

We look forward to receiving the Juiced! CD you mentioned. Already I am receiving emails from participants wanting to ensure their inclusion in your generous offer.

Thank you for contributing your non-stop energy and outstanding professional expertise to our Consortium. It is of great value to our members.

Warm regards,

Kathleen Muldoon  
on behalf of the **Wyeth Performance Consortium Board**  
Associate Director, Training Solutions  
Global Compliance and Training (GCaT)
